Chap. CCXIII.—Provides that it shall not be lawful for any officer, agent or servant of the Government of the U. S. to contract with any person or corporation, or permit any warden, agent or official of any State prison, penitentiary, jail or house of correction where criminals of the U. Chap. CCCXXXIX.—Provides that whenever the President shall be satisfied that American fishing vessels or American fishermen, visiting or being in the waters or at any ports or places of the British dominions of North America, are or then lately have been denied or abridged in the enjoyment of any rights secured to them by treaty or law, or are or then lately have [been] unjustly vexed or harassed in the enjoyment of such rights, or subjected to unreasonable restrictions, regulations or requirements in respect of such rights; or otherwise unjustly vexed or harassed in said waters, ports or places; or whenever the President shall be satisfied that any such fishing vessels or fishermen, having a permit under the laws of the U. S. to touch and trade at any port or ports, place or places, in the British dominions of North America, are or then lately have been denied the privilege of entering such port or ports, place or places in the same manner and under the same regulations as may exist therein applicable to trading vessels of the most favored nation, or shall be unjustly vexed or harassed in respect thereof, or otherwise be unjustly vexed or harassed therein, or shall be prevented from purchasing such supplies as may there be lawfully sold to trading vessels of the most favored nation; or whenever the President shall be satisfied that any other vessels of the U. dominions of North America, any entrance into the waters, ports or places of, or within the U. S. [Approved February 23, 1887.

INDIANS.

Chap. CXIX.—Enacts that in all cases where any tribe or band of Indians has been, or shall hereafter be, located upon any reservation created for their use, either by treaty stipulation or by an act of Congress or executive order setting apart the same for their use, the President be, and he hereby is, authorized, whenever in his opinion any reservation or any part thereof of such Indians is advantageous for agricultural and grazing purposes, to cause said reservation, or any part thereof, to be surveyed, or resurveyed if necessary, and to allot the lands in said reservation to severalty to any Indian located thereon in quantities as follows:

To each head of a family, one-quarter of a section;

To each single person over eighteen years of age, one-eighth of a section;

To each orphan child under eighteen years of age, one-eighth of a section; and

To each other single person under eighteen years now living, or who may be born prior to the date of the order of the President directing an allotment of the lands embraced in any reservation, one-sixteenth of a section: *Provided*, That in case there is not sufficient land in any of said reservations to allot lands to each individual of the classes above named in quantities as above provided, the lands embraced in such reservation or reservations shall be allotted to each individual of each of said classes pro rata in accordance with the provisions of this act: *And provided further*, That where the treaty or act of Congress setting apart such reservation provides for the allotment of lands in severalty in quantities in excess of those herein provided, the President, in making allotments upon such reservation, shall allot the lands to each individual Indian belonging thereon in quantity as specified in such treaty or act: *And provided further*, That when the lands allotted are only valuable for grazing purposes, an additional allotment of such grazing lands, in quantities as above provided, shall be made to each individual.

This act shall not extend to the territory occupied by the Cherokees, Creeks, Choctaws, Chickasaws, Seminoles, and Osage, Miamies and Peorias, and Sacs and Foxes, in the Indian Territory, nor to any of the reservations of the Seneca Nation of New-York Indians in the State of New-York, nor to that strip of territory in the State of Nebraska adjoining the Sioux Nation on the south added by executive order. [Approved February 8, 1887.

INTERSTATE COMMERCE ACT.

Chap. CIV.—Provides that all charges made for any service rendered or to be rendered in the transportation of passengers or property from one State or Territory to another, or in connection therewith, or for the receiving, delivering, storage or handling of such property, shall be reasonable and just; and every unjust and unreasonable charge for such service is prohibited and declared to be unlawful.

That if any common carrier subject to the provisions of this act shall, directly or indirectly, by any special rate, rebate, drawback, or other device, charge, demand, collect, or receive from any person or persons a greater or less compensation for any services rendered, or to be rendered, in the transportation of passengers or property, subject to the provisions of this act, than it charges, demands, collects, or receives from any other person or persons for doing for him or them a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances and conditions, such common carrier shall be deemed guilty of unjust discrimination, which is hereby prohibited and declared to be unlawful.

That it shall be unlawful for any common carrier subject to the provisions of this act to make or give any undue or unreasonable preference or advantage to any particular person, company, firm, corporation, or locality, or any particular description of traffic, in any respect whatsoever, or to subject any particular person, company, firm, corporation, or locality, or any particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

Every common carrier subject to the provisions of this act shall, according to their respective powers, afford all reasonable, proper, and equal facilities for the interchange of traffic between their respective lines, and for the receiving, forwarding, and delivering of passengers and property to and from their several lines and those connecting therewith, and shall not discriminate in their rates and charges between such connecting lines; but this shall not be construed as requiring any such common carrier to give the use of its tracks or terminal facilities to another carrier engaged in like business.

That it shall be unlawful for any common carrier subject to the provisions of this act to charge or receive any greater compensation in the aggregate for the transportation of passengers or of like kind of property, under substantially similar circumstances and conditions, for a shorter than for a longer distance over the same line, in the same di-

rection, the shorter being included within the longer distance: but this shall not be construed as authorizing any common carrier within the terms of this act to charge and receive as great compensation for a shorter as for a longer distance: *Provided, however*, That upon application to the Commission appointed under the provisions of this act, such common carrier may, in special cases, after investigation by the Commission, be authorized to charge less for longer than for shorter distances for the transportation of passengers or property; and the Commission may from time to time prescribe the extent to which such designated common carrier may be relieved from the operation of this section of this act.

That it shall be unlawful for any common carrier subject to the provisions of this act to enter into any contract, agreement, or combination with any other common carrier or carriers for the pooling of freights of different and competing railroads, or to divide between them the aggregate or net proceeds of the earnings of such railroads, or any portion thereof; and in any case of an agreement for the pooling of freights as aforesaid, each day of its continuance shall be deemed a separate offence.

That every common carrier subject to the provisions of this act shall print and keep for public inspection schedules showing the rates and fares and charges for the transportation of passengers and property which any such common carrier has established and which are in force at the time upon its railroad, as defined by the first section of this act.

No advance shall be made in the rates, fares and charges which have been established and published as aforesaid by any common carrier in compliance with the requirements of this section, except after ten days' public notice, which shall plainly state the changes proposed to be made in the schedule then in force, and the time when the increased rates, fares or charges will go into effect; and the proposed changes shall be shown by printing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept for public inspection. Reductions in such published rates, fares or charges may be made without previous public notice; but whenever any such reduction is made, notice of the same shall immediately be publicly posted and the changes made shall immediately be made public by printing new schedules, or shall immediately be plainly indicated upon the schedules at the time in force and kept for public inspection.

And when any such common carrier shall have established and published its rates, fares and charges in compliance with the provisions of this section, it shall be unlawful for such common carrier to charge, demand, collect or receive from any person or persons a greater or less compensation for the transportation of passengers or property, or for any services in connection therewith, than is specified in such published schedule of rates, fares and charges as may at the time be in force.

That it shall be unlawful for any common carrier subject to the provisions of this act, to enter into any combination, contract or agreement, expressed or implied, to prevent, by change of time schedule, carriage in different cars, or by other means or devices, the carriage of freights from being continuous from the place of shipment to the place of destination; and no break of bulk, stoppage or interruption made by such common carrier shall prevent the carriage of freights from being and being treated as one continuous carriage from the place of shipment to the place of destination, unless such break, stoppage or interruption was made in good faith for some necessary purpose, and without any intent to avoid or unnecessarily interrupt such continuous carriage, or to evade any of the provisions of this act.

The Interstate Commerce Commission is hereby created, composed of five Commissioners, appointed by the President, by and with the advice and consent of the Senate. The Commissioners first appointed shall continue in office for two, three, four, five and six years, respectively, from the first day of January, 1887, the term of each to be designated by the President; but their successors shall be appointed for six years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired time of the Commissioner whom he shall succeed. Any Commissioner may be removed by the President for inefficiency, neglect of duty, or malfeasance in office. Not more than three shall be appointed from the same political party. No person in the employ of or holding any official relation to any common carrier subject to the provisions of this act, or owning stocks or bonds thereof, or who is in any manner pecuniarily interested therein, shall enter upon the duties of or hold such office. Said Commissioners shall not engage in any other business, vocation, or employment. No vacancy in the Commission shall impair the right of the remaining Commissioners to exercise all the powers of the Commission. The annual salary of each is $7,500; of the secretary, $3,500.

That the Commission hereby created shall have authority to inquire into the management of the business of all common carriers subject to the provisions of this act, and shall keep itself informed as to the manner and method in which the same is conducted, and shall have the right to obtain from such common carriers full and complete information necessary to enable the Commission to perform the duties and carry out the objects for which it was created; and for the purposes of this act the Commission shall have power to require the attendance and testimony of witnesses and the production of all books, papers, tariffs, contracts, agreements and documents relating to any matter under investigation, and to that end may invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers and documents under the provisions of this section.

That any person, firm, corporation, or association, or any mercantile, agricultural, or manufacturing society, or any body politic or municipal organization complaining of anything done or omitted to be done by any common carrier subject to the provisions of this act in contravention of the provisions thereof, may apply to said Commission by petition, which shall briefly state the facts; whereupon a statement of the charges thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint or to answer the same in writing within a reasonable time, to be specified by the Commission. If such common carrier, within the time specified, shall make reparation for the injury alleged to have been done, said carrier shall be relieved of liability to the complainant

only for the particular violation of law thus complained of. If such carrier shall not satisfy the complaint within the time specified, or there shall appear to be any reasonable ground for investigating said complaint, it shall be the duty of the Commission to investigate the matters complained of in such manner and by such means as it shall deem proper.

Said Commission shall in like manner investigate any complaint forwarded by the railroad commissioner or railroad commission of any State or Territory, at the request of such commissioner or commission, and may institute any inquiry on its own motion in the same manner and to the same effect as though complaint had been made.

No complaint shall at any time be dismissed because of the absence of direct damage to the complainant.

That whenever an investigation shall be made by said Commission, it shall be its duty to make a report in writing in respect thereto, which shall include the findings of fact upon which the conclusions of the Commission are based, together with its recommendation as to what reparation, if any, should be made by the common carrier to any party or parties who may be found to have been injured; and such findings so made shall thereafter, in all judicial proceedings, be deemed prima facie evidence as to each and every fact found.

All reports of investigations made by the Commission shall be entered of record, and a copy thereof shall be furnished to the party who may have complained, and to any common carrier that may have been complained of.

Penalties are provided for any violations of the various provisions of this act.

That nothing in this act shall apply to the carriage, storage, or handling of property free or at reduced rates for the United States, State, or municipal governments, or for charitable purposes, or to or from fairs and expositions for exhibition thereat, or the issuance of mileage, excursion, or commutation passenger tickets; nothing in this act shall be construed to prohibit any common carrier from giving reduced rates to ministers of religion; nothing in this act shall be construed to prevent railroads from giving free carriage to their own officers and employes, or to prevent the principal officers of any railroad company or companies from exchanging passes or tickets with other railroad companies for their officers and employes; and nothing in this act contained shall in any way abridge or alter the remedies now existing at common law or by statute, but the provisions of this act are in addition to such remedies. *Provided*, That no pending litigation shall in any way be affected by this act.—[Approved February 4, 1887.

MILITIA.

Chap. CXXIX.—Amends and re-enacts Section 1,661 of the Revised Statutes to appropriate $400,000 annually to provide arms, ordnance stores, quartermaster's stores, and camp equipage for issue to the militia.

Said appropriation shall be apportioned among the several States and Territories under the direction of the Secretary of War, according to the number of their Senators and Representatives, and to the Territories and District of Columbia such proportion and under such regulations as the President may prescribe: *Provided, however*, That no State shall be entitled to the benefits of the appropriation apportioned to it unless the number of its regularly enlisted, organized and uniformed active militia shall be at least 100 men for each Senator and Representative to which such State is entitled in the Congress of the U. S.—[Presented to the President February 1, 1887, and not having been by him returned within ten days, it became a law without his approval.

NAVY, INCREASE OF.

Chap. CCCXCI. provides that for the purpose of increasing the naval establishment the President is hereby authorized to have constructed by contract two steel gunboats, each of about 1,700 tons displacement, of the type of gunboat number one, at a cost, exclusive of armament, of not more than $550,000 each, two steel cruisers to be provided with such armament for each as the Navy Department may deem suitable. The cost of both of said cruisers in the aggregate, complete, exclusive of armament, and excluding any premiums that may be paid for speed for the same shall not be more than $3,000,000.

That in the construction of the aforesaid vessels all of the provisions of the act of August 3, 1886, as to material, engines, boilers, and machinery, shall be followed, so far as the same relate to vessels constructed under contract, save that in all their parts they shall be of domestic manufacture. The contracts shall contain provisions that the contractor guarantees that when completed and tested for speed, under conditions to be prescribed by the Navy Department, the vessel shall exhibit a maximum speed of at least nineteen knots per hour; and for every quarter knot of speed so exhibited above said guaranty the contractor shall receive a premium over and above his contract price of $50,000, and for every quarter knot that said vessel fails of reaching said guaranteed speed there shall be deducted from the contract price the sum of $50,000.

One of such vessels shall be built on the coast of the Pacific Ocean, one on the coast of the Gulf of Mexico, and two on the coast of the Atlantic Ocean, and at such places as the Secretary of the Navy shall approve.

If it shall appear to the satisfaction of the President from the biddings that said vessels cannot be constructed at a fair cost on the coast of the Pacific or the Gulf, he shall authorize the construction of said vessels or either of them elsewhere in the United States. And the Secretary of the Navy is hereby authorized to readvertise for the construction of cruiser number one, known as the Newark, and the limit of cost of said vessel is hereby extended to $1,300,000, exclusive of armament.

The sums of money hereinafter named are hereby appropriated to be expended by the President, in the exercise of his discretion, upon plans and specifications to be furnished by the Navy Department:

For floating batteries or rams or other naval structures to be used for coast and harbor defence, $1,000,000. The final cost of said floating batteries, rams or other naval structures, exclusive of armament, shall not exceed $2,000,000.

For the purchase of and the trial and testing of torpedoes and appliances using explosives to be operated from naval vessels, floating batteries or rams, $50,000, which sum shall be immediately available.

That the material used in all naval structures provided for in this act and the arma-

ment for the same shall be, so far as practicable, of American production and furnished and manufactured in the United States, and all contracts made for their construction shall be under the provisions of the act of August 3, 1886.

For expenditure toward the construction and completion (exclusive of armament) of the five double-turreted monitors, the four vessels authorized by the act of March 3, 1885, and the vessels authorized by the act of August 3, 1886, $2,420,000.

Toward the armament of domestic manufacture for the vessels authorized by the act of March 3, 1885, of the vessels authorized by Sections 1 and 2 of the act of August 3, 1886, of the unfinished monitors mentioned in Section 3 of the same act, and of the Miantonomoh, and of the vessels authorized by this act, $2,128,362.

Toward procuring, testing and delivering the armor and gun steel for the vessels authorized by Section 1 of the act of August 3, 1886, and the unfinished monitors mentioned in Section 3 of the same act, and the vessels authorized by this act, $4,000,000. *Provided*, said armor and gun steel shall be of domestic manufacture.—[Approved March 3, 1887.

S. shall import opium into any of the open ports of China, nor transport the same from one open port to any other open port, or buy or sell opium in any of such open ports of China, nor shall any vessel owned by citizens of the U. S. in Mexico, or on the coast or frontier thereof, in the war with that nation, or were actually engaged in a battle in said war, and were honorably discharged; also such other officers and soldiers and sailors as may have been personally named in any resolution of Congress for any specific service in said war, and the surviving widows of such officers or enlisted men if such widows have not remarried: *Provided*, That every such officer, enlisted man or widow who is or may become sixty-two years of age, or who is or may become subject to any disability or dependency equivalent to some cause prescribed or recognized by the pension laws of the United States as a sufficient reason for the allowance of a pension, shall be entitled to the benefits of this act; but it shall not be held to include any person not within the rule of age or disability or dependence herein defined, or who incurred such disability while in any manner voluntarily engaged in or aiding or abetting the late rebellion against the authority of the United States.

That section of 4,716* of the Revised Statutes is hereby repealed so far as the same relates to this act or to pensioners under this act.

PRESIDENTIAL ELECTORS.

Chap. XC.—Requires the electors of each State to meet and give their votes on the second Monday in January next following their appointment, at such place in each State as the Legislature shall direct.

SEC. 2. That if any State shall have provided, by laws enacted prior to the day fixed for the appointment of the electors, for its final determination of any controversy or contest concerning the appointment of all or any of the electors of such State, by judicial or other methods or procedures, and such determination shall have been made at least six days before the time fixed for the meeting of the electors, such determination made pursuant to such law so existing on said day, and made at least six days prior to the said time of meeting of the electors, shall be conclusive, and shall govern in the counting of the electoral votes as provided in the Constitution, as hereinafter regulated, so far as

* This section is as follows: "No money on account of pensions shall be paid to any person, or to the widow, children or heirs of any deceased person, who in any manner voluntarily engaged in, or aided or abetted, the late rebellion against the authority of the United States."

the ascertainment of the electors appointed by such State is concerned.

SEC. 3. That it shall be the duty of the Executive of each State, as soon as practicable after the conclusion of the appointment of electors in such State, by the final ascertainment under and in pursuance of the laws of such State providing for such ascertainment, to communicate, under the seal of the State, to the Secretary of State of the U. S., a certificate of such ascertainment of the electors appointed, setting forth the names of such electors and the canvass or other ascertainment under the laws of such State of the number of votes given or cast for each person for whose appointment any and all votes have been given or cast; and it shall also thereupon be the duty of the Executive of each State to deliver to the electors of such State, on or before the day on which they are required by the preceding section to meet, the same certificate, in triplicate, under the seal of the State; and such certificate shall be inclosed and transmitted by the electors at the same time and in the same manner as is provided by law for transmitting by such electors to the seat of Government the lists of all persons voted for as President and of all persons voted for as Vice-President; and section 136* of the Revised Statutes is hereby repealed; and if there shall have been any final determination in a State of a controversy or contest as provided for in section two of this act, it shall be the duty of the Executive of such State, as soon as practicable after such determination, to communicate, under the seal of the State, to the Secretary of State of the U. S., a certificate of such determination, in form and manner as the same shall have been made; and the Secretary of State of the U. S., as soon as practicable after the receipt at the State Department of each of the certificates hereinbefore directed to be transmitted to the Secretary of State, shall publish, in such public newspaper as he shall designate, such certificates in full; and at the first meeting of Congress thereafter he shall transmit to the two Houses of Congress copies in full of each and every such certificate so received theretofore at the State Department.

SEC. 4. That Congress shall be in session on the second Wednesday in February succeeding every meeting of the electors. The Senate and House of Representatives shall meet in the Hall of the House of Representatives at the hour of 1 o'clock in the afternoon on that day, and the President of the Senate shall be their presiding officer. Two tellers shall be previously appointed on the part of the Senate and two on the part of the House of Representatives, to whom shall be handed, as they are opened by the President of the Senate, all the certificates and papers purporting to be certificates of the electoral votes, which certificates and papers shall be opened, presented and acted upon in the alphabetical order of the States, beginning with the letter A; and said tellers, having then read the same in the presence and hearing of the two Houses, shall make a list of the votes as they shall appear from the said certificates, and the votes having been ascertained and counted in the manner and according to the rules in this act provided, the result of the same shall be delivered to the President of the Senate, who shall thereupon announce the state of the vote, which announcement shall be deemed a sufficient declaration of the persons, if any, elected President and Vice-President of the United States, and, together with a list of votes, be entered on the Journals of the two Houses. Upon such reading of any such certificate or paper, the President of the Senate shall call for objections, if any. Every objection shall be made in writing, and shall state clearly and concisely, and without argument, the ground thereof, and shall be signed by at least one Senator and one Member of the House of Representatives before the same shall be received. When all objections so made to any vote or paper from a State shall have been received and read, the Senate shall thereupon withdraw, and such objections shall be submitted to the Senate for its decision; and the Speaker of the House of Representatives shall, in like manner, submit such objections to the House of Representatives for its decision; and no electoral vote or votes from any State which shall have been regularly given by electors whose appointment has been lawfully certified to according to section three of this act from which but one return has been received shall be rejected, but the two Houses concurrently may reject the vote or votes when they agree that such vote or votes have not been so regularly given by electors whose appointment has been so certified. If more than one return or paper purporting to be a return from a State shall have been received by the President of the Senate, those votes, and those only, shall be counted which shall have been regularly given by the electors who are shown by the determination mentioned in section two of this act to have been appointed, if the determination in said section provided for shall have been made, or by such successors or substitutes, in case of a vacancy in the Board of Electors so ascertained, as have been appointed to fill such vacancy in the mode provided by the laws of the State; but in case there shall arise the question which of two or more of such State authorities determining what electors have been appointed, as mentioned in section two of this act, is the lawful tribunal of such State, the votes regularly given of those electors, and those only, of such State shall be counted whose title as electors the two Houses, acting separately, shall concurrently decide is supported by the decision of such State so authorized by its laws; and in such case of more than one return or paper purporting to be a return from a State, if there shall have been no such determination of the question in the State aforesaid, then those votes, and those only, shall be counted which the two Houses shall concurrently decide were cast by lawful electors appointed in accordance with the laws of the State, unless the two Houses, acting separately, shall concurrently decide such votes not to be the lawful votes of the legally appointed electors of such State. But if the two Houses shall disagree in respect of the counting of such votes, then, and in that case, the votes of the electors whose appointment shall have been certified by the Executive of the State, under the seal thereof, shall be counted. When the two Houses have voted, they shall im-

*Section 136 is: "It shall be the duty of the Executive of each State to cause three lists of the names of the electors of such State to be made and certified, and to be delivered to the electors on or before the day on which they are required, by the preceding section, to meet.

mediately again meet, and the presiding officer shall then announce the decision of the questions submitted. No votes or papers from any other State shall be acted upon until the objections previously made to the votes or papers from any State shall have been finally disposed of.

SEC. 5. That while the two Houses shall be in meeting as provided in this act the President of the Senate shall have power to preserve order; and no debate shall be allowed and no question shall be put by the presiding officer except to either House on a motion to withdraw.

SEC. 6. That when the two Houses separate to decide upon an objection that may have been made to the counting of any electoral vote or votes from any State, or other question arising in the matter, each Senator and Representative may speak to such objection or question five minutes, and not more than once; but after such debate shall have lasted two hours it shall be the duty of the presiding officer of each House to put the main question without further debate.

SEC. 7. Such joint meeting shall not be dissolved until the count of electoral votes shall be completed and the result declared; and no recess shall be taken unless a question shall have arisen in regard to counting any such votes, or otherwise under this act, in which case it shall be competent for either House, acting separately, in the manner hereinbefore provided, to direct a recess of such House not beyond the next calendar day, Sunday excepted, at the hour of 10 o'clock in the forenoon. But if the counting of the electoral votes and the declaration of the result shall not have been completed before the fifth calendar day next after such first meeting of the two Houses, no further or other recess shall be taken by either House.—[Approved February 3, 1887.

S. or in the District of Columbia, except such as may be acquired by inheritance or in good faith in the ordinary course of justice in the collection of debts heretofore created. *Provided*, That the prohibition of this section shall not apply to cases in which the right to hold or dispose of lands in the U. CCCXCVII.—Annuls the laws of the Legislative Assembly of the Territory of Utah which provide that prosecutions for adultery can only be commenced on the complaint of the husband or wife, and provides that they may be instituted in the same way that prosecutions for other crimes are. It annuls the laws recognizing the capacity of illegitimate children to inherit any distributive share in the estate of the father. It annuls the laws creating the associations called the Perpetual Emigrating Fund Company, and called the Church of Jesus Christ of Latter-Day Saints, and makes it the duty of the Attorney-General to institute proceedings to wind up the affairs of such corporations conformably to law. PARTY PLATFORMS, 1887,

TOUCHING TARIFF, TEMPERANCE, CIVIL SERVICE AND EDUCATION.

REPUBLICAN PLATFORMS.

IOWA.

We continue to favor a Protective tariff for the upbuilding of American industries and the development of all our resources as a nation. We also favor it for the protection of American labor and in such degree as will maintain to such labor the advantage of the difference between the wages of the workingmen of Europe and America. We believe the tariff should be revised and reduced wherever this policy will allow and the public interest approve. The strictest honesty, economy and retrenchment should be required and followed in the expenditure of public money, and we declare for all possible and practicable reduction of taxation, both National and State.

KENTUCKY, May 11.

That we are heartily in favor of asking and receiving Federal aid to common school system.

That we approve of and will support a tariff so adjusted as to protect and develop American industries.

MARYLAND, August 24.

The Republican party of Maryland demands the passage of such laws, State and National, as will effectually protect American labor, American society and American institutions from the influence of the pauper and criminal classes of other countries and from the competition of convict labor at home.

That the Republican party of Maryland declares that the reform in the Civil Service should be thorough, radical and complete. To that end it demands . . that Congress shall so legislate that fitness ascertained by proper, practical competitive tests, shall admit to the public service; that the tenure of administrative offices (except those through which the distinctive policy of the party in power shall be carried out) shall be made secure during good behavior; and that the power of removal for cause, with responsibility for the good conduct of subordinates, shall accompany the power of appointment.

Resolved, That the principles thus declared with reference to the National Government should be applied in their full force to the Government of the State of Maryland and of the city of Baltimore.

Resolved, That it is the imperative duty of Congress to pass the measure known as the Blair Educational bill, or some equivalent provision for aiding the States in removing the illiteracy which now exists in so many of them, and which is so dangerous to the welfare of the whole country.

MASSACHUSETTS, September 28.

We believe in a protective tariff, recognizing the benefits it brings to our country by giving our people more varied industries, more constant employment and better remuneration; furnishing an incentive for the full development of our resources and securing our markets—the best in the world—to our own producers.

We favor liberal appropriations for the reconstruction of our Navy, for internal improvements and for proper National aid to education, also pensions for disabled soldiers and sailors. To meet further the question of a Treasury surplus we recommend such a reduction of internal revenue taxation as the exigencies of the case may require. The time has come for Congress carefully to consider the question of the internal revenue system and of the tariff on sugar, and the improvement of the administration of our customs laws, especially in regard to fraudulent undervaluations.

We believe in an honest ballot, both North and South, and that every citizen should be allowed to vote and have his vote counted. We condemn the systematic suppression of the Republican vote in the Southern States and the recent unblushing election frauds in certain Northern cities. The maintenance of the purity and the safety of the ballot-box is and always shall be a cardinal Republican principle.

We pledge ourselves to maintain the existing Civil Service law of this Commonwealth. We approve of the National Civil Service law passed by a Republican Congress, and demand that it be extended to other departments not now under its provisions. . . We point to the array of shameful dismissals and disgraceful appointments by the present Administration, and also to the President's indorsements of the spoils machine in Maryland and other States. If further proof were needed it has been furnished by the recent Democratic convention in this State, which shows that the Democratic party in Massachusetts stands with that party throughout the country in support of the doctrine, "To the victors belong the spoils."

Recognizing intemperance as the most fruitful source of pauperism, crime, etc., in politics and social degradation, we affirm our belief in the most thorough restriction of the liquor traffic and the enforcement of the laws for its suppression. We approve the action of the last Legislature in enacting so many temperance statutes, and demand the continued enactment of progressive temperance measures as the policy of our party. We repeat the recommendation of last year's convention as follows: "Believing that this great public question now demands settlement, we favor the submission to the people of an amendment to our Constitution prohibiting the manufacture and sale of alcoholic liquor for a beverage." In order to have the matter placed before the people we call upon all those who are opposed to the political control of the grogshops to unite with the Republican party in electing Senators and Representatives who will vote for the submission of this amendment.

The elevation of American labor, the increase of its wages, the promotion and security of all its interests, material and moral, are not only a cardinal object of the Republican party, but are the principal purposes for which it was formed and for which it exists; as witness its protective policy, its demand for a free ballot and for universal education

and the well-known liberal legislation of Republican Massachusetts in behalf of the wage workers. We believe this end will be defeated by the success of any attempt to array labor against capital, which is the legitimate fruit of industry and enterprise for all alike, and upon the accumulation of which the employment and prosperity of labor itself largely depends.

The Republican party ever has maintained and ever will maintain and defend the common schools of Massachusetts as the very citadel of her liberties and the source of her glory, greatness and happiness. They shall be kept open to all her children and free from all partisan and sectarian control.

NEBRASKA, October 6.

The platform condemns a system of revenue that compels the farmers of the West to pay tribute to the manufacturers of the East, pledges the party to submit a prohibitory amendment to the State Constitution, condemns the President for his attempt to return the rebel flags, favors the admission of Dakota, views with alarm the abuse of the veto power by the President, and sustains the State Board of Transportation in its effort to secure reasonable freight and passenger rates.

A "Revenue Reform" Tariff resolution was tabled—319 to 178, and a tariff revision on a Protection basis was demanded.

NEW-YORK, September 14.

The Republican party, by all honorable means, seeks restoration to power in the State and in the Nation, because of the unchallenged record of history attesting its administrative successes in war time, in the period of restoration and pacification, in executive, legislative and financial achievements, in the purity and efficiency of its methods and in the lasting benefits conferred upon the people, and because, since Democratic ascendency in the State and Nation, the incapacity and inefficiency of that party in administration and in legislation, the egregious blunders of the Executive and the Democratic branch of Congress, many of whose acts are to the detriment of the public interests, have constantly emphasized the wisdom and necessity of such restoration.

Two and a half years of a Democratic President, who has had the co-operation of an overwhelming majority in the House of Representatives, where, under the Constitution, all revenue measures must originate, have exposed the incapacity of the Democratic party and the weakness of the Democratic policy under which so much was promised the people, but from which there have come only broken pledges, failure to promote the people's interests; no plan to reduce the revenues or to retrench expenditures; no purpose to promote a practical civil service reform, or otherwise to improve the public service; while conspicuous among the many shortcomings of this Administration are numberless appointees who have proved faithless and incompetent, the postal service disorganized and its efficiency impaired, and the public business in other departments delayed and obstructed.

We adhere firmly to the American policy, under whose operation unexampled prosperity and thrift have blessed the land, and hold that any changes to be made in the tariff laws should be made by the friends of those laws, and in the interest of protection of labor on our own soil, and of home markets, not by or in the interest of free trade propagandists, nor for the benefit of foreign producers and foreign labor. National taxation should be so adjusted as to raise revenue sufficient for an economic and wise administration of the Government, for the payment of the public debt, for the development of National resources and for National defence; but any reduction should be so made as not to impair the prosperity of home industries. American markets must be preserved to the products of American labor and capital and protected from foreign encroachments.

The principle of the National and State Civil Service Reform laws has our hearty approval. These laws should be executed in the spirit in which they were enacted and accepted by the people, and be advanced and made permanent. The hypocritical pretences under which both President Cleveland's and Governor Hill's administrations have continually and shamefully violated the law by systematic perversion to partisan purposes deserve the popular condemnation.

The political rights of all persons throughout the land must be established firmly and beyond controversy. The persecution of the workingman in the South and the denial of his civil rights cause degradation, low wages and inferior products, which bring into unfair competition the labor of the North and obstruct that full measure of prosperity and thrift that equal conditions throughout the country would establish and maintain. A fair hearing on all public questions, a free ballot in every citizen's hand and an honest count of the vote are just prerogatives of citizenship to which full respect must be paid to insure the enjoyment of the freeman's birthright and the maintenance of republican government on a stable foundation.

The veterans of the Union armies and navies are entitled to the liberal consideration of this people for all public preferment, and should receive generous care and adequate pensions. The flippant, sneering language of President Cleveland's vetoes of pension bills was insulting to the veterans and degrading to the Executive. The subservient spirit displayed in Mr. Cleveland's illegal order to return Rebel battle-flags—the precious trophies of the Union troops—deserves only reprobation, and justly excites the resentment of all loyal people.

Congress should pass laws and establish regulations that will prevent the coming to our shores of disreputable and undesirable persons, whose presence here would threaten good government, disturb the peace and order, and depreciate the dignity and rewards of honest labor. Anarchists, communists, polygamists, paupers, fugitives from justice, and insane, vicious and criminal persons, as also contract labor, should be rigorously excluded. But honest, industrious, well-intentioned persons escaping the oppression and degradation of Old World despotisms and the crushing force of free trade policies are welcome as a desirable element in our population.

The record of the Republican Legislature for wisdom in general action, for giving labor the legislation it sought and for efficiency and economy in State expenditure commands approval. The low rate of State taxation is the best evidence of fidelity and prudence. Had the Democratic Governor given sanction to wise legislative action, the tax list would have been reduced to a minimum and

the people would have cause to rejoice in an era of genuine reform.

We heartily indorse the purpose of the Republican majority of the Legislature in passing the bills to limit and restrict the liquor traffic, and we condemn the vetoes of the Governor as hostile to that purpose. We recommend comprehensive and efficient legislation for giving local option by counties, towns and cities, and restriction by taxation in such localities as do not by their option exclude absolutely the traffic.

The State census, under constitutional direction, having been voted by the Republican Legislature and defeated by the Democratic Governor's veto, the failure to secure an enumeration and reapportionment and other benefits of the census is chargeable solely to the Executive's nullification of the Constitution's mandate and his defiance of the co-ordinate branch of the State Government, with which all legislation must originate and which is accountable therefor, and the Democratic party, in sustaining the Governor's veto, shares with him the responsibility and discredit for the wanton over-riding of the Constitution.

The veto and defeat by Governor Hill of an improved Registry bill, of which the purpose was to promote pure elections, was an outrage upon the rights of lawful electors. The most efficient safeguard should be placed about the primary, the source of all political action, as well as about the ballot-box, so as to secure their purity and inviolability.

The people of the State, having voted in favor of a Constitutional Convention, the Legislature made provision therefor and the Governor became responsible by his veto for the annulment of the popular will.

Whatever propositions of legislation will mitigate and equalize taxation should be enacted; and to Republican legislation is due the progress that has been made in this direction in this State. The Corporation Tax laws and Collateral Inheritance bill and Homestead Tax Exemption are in the right spirit and tend to simplify the tax system. We are in favor of such further changes in the tax laws as shall equalize the burden and compel personal property to bear its proper share.

We approve the laws, State and National, prohibiting the manufacture and sale of articles of food made in simulation of butter and cheese and earnestly favor such further legislation as may be necessary for the protection of genuine dairy products.

We recommend to the Legislature a just care of the interests of the people of this State in the maintenance of cheap transportation through a wholesome competition by the State's waterways and the doing of this without placing unnecessary burdens upon localities beyond the benefits received. National support of the Erie Canal, the great highway for the products of the West to the seaboard, is favored and invited.

The cause of Ireland and the efforts in its behalf by Gladstone, Parnell and their associates have the earnest sympathy of Republicans and command their co-operation by all peaceful methods to promote an early and complete triumph.

The majority of the Committee on Resolutions reported the ninth resolution as printed above. The minority reported this as a substitute:

That while the Republican party of the State of New-York unalterably opposes any legislation which attempts to prohibit individual freedom of choice of beverages, as well as of food or raiment, it recognizes the right of the people of this State to repress and punish intemperance in any form prejudicial to the welfare of society. It also recognizes the right of the people to compel all traffic in any articles which may tend to produce or increase pauperism or crime, to bear the burdens of taxation which through them are imposed upon the people. It also recognizes the fact that nearly 80 per cent of the entire State tax is now paid by the nine counties which contain the principal cities of the State—and that such counties bear in addition thereto the burdens of the maintenance of expensive local, charitable and penal institutions and it therefore holds that the questions as to what proportion of taxation such traffic should be required to contribute and how that proportion should be collected, should by proper legislation be immediately submitted to a popular vote in those counties affected by the existence of such traffic. It also reaffirms the principle of local option now provided by law and holds that the provisions of such law should be extended to the cities of this State.

Mr. Crosby, of New-York, submitted the following:

That the Republican party believes the cause of temperance can best be served by a system of high license or tax, and it pledges itself to do all in its power to secure such a system for this State.

This was disagreed to almost unanimously.

The minority report was lost—yeas 136, nays 515.

The platform was then adopted without division.

OHIO, July 28.

We are in favor of a protective tariff, to secure to American citizens the privilege of supplying every article which can be produced as well in the United States as in other countries, and sufficiently to supply American wants. Such a tariff makes a demand for and gives employment to the labor of American citizens, and thereby aids in securing just compensation for labor. We denounce the Ohio Democratic platform of a tariff for revenue only, and which demands an indiscriminate reduction in all duties on imported articles, the effect of which would be to encourage importations, thus giving American patronage to foreign producers and foreign labor rather than to our own.

We demand such duties on wool and manufactures thereof as will secure the American market to American producers. We denounce the demand made under President Cleveland's Administration by the Secretary of the Treasury in his annual report of December 6, 1886, for the "immediate passage of an act placing raw wool under the free list," and we denounce the Democratic State platform which "proclaims its hearty and unqualified indorsement" of said Administration, and demands a "reduction of the present" duties on wool and on woollen and worsted goods. Such reduction would destroy the wool-growing and woollen manufacturing industries, would invite large imports, break down American competition and give the control of our market to foreign producers, who would ultimately demand exorbitant prices. We earnestly protest against the decisions of the Secretary of the Treasury in customs cases in the interest of

the foreign producer and foreign labor, as in opposition to the letter and spirit of the tariff laws.

We favor liberal pensions to the soldiers and sailors of the Union, adequate appropriations for the improvement of our National waterways and National aid to education. If too much revenue be collected to meet these and other public needs, we demand that the first step in the reduction thereof shall be the abolition of the internal tax upon American-grown tobacco.

While we condemn the false pretence of President Cleveland's administration of the Civil Service law, we advocate the maintenance and proper enforcement of said law, and demand such additional legislation as will remove appointments from partisan influence.

We deprecate National strife and divisions. We have placed the war, with its hates and revenges, behind us; but the settlements of the war must stand irrevocable—respected, honored and observed in every part of the Republic. More we have never demanded, less we will not have. Congress should exercise its constitutional authority and take control and supervision of elections of Representatives to Congress.

PENNSYLVANIA, August 17.

That they reaffirm their declaration of 1886 in favor of submitting to a vote of the people the prohibitory constitutional amendment. We also indorse the action of the last Legislature in the submission of the amendment making suffrage free by abolishing the tax qualification for a vote.

We favor a tariff for the sake of nurturing American manufactures until the industries and resources of this country furnish its people with every item of consumption they can naturally produce, and for the purpose of protecting home labor against foreign labor, as well as its products. It is likewise the part of that protective policy of which Pennsylvania has been the parent to protect American workmen from the unequal and unjust competition of imported contract and pauper labor, and we demand the passage of more vigorous national laws for the scrutiny of immigration and the return of the unfit and the unworthy. In this connection we declare our abhorrence of Anarchistic ideas and propositions destructive of the rights of property and our system of society and government. Their resultant violations of the law should be visited with prompt and extreme penalties.

We favor the creation of an American marine by the provision of bounties upon exports and discriminating duties upon imports in American bottoms.

The soldiers of the Union are worthy of the lasting gratitude and continued favor of a restored Government, and the surplus in the Treasury cannot better be distributed than in the enlargement of the general pension list so as to include all honorably discharged soldiers of the Union Army who may be in absolute need of public aid.

RHODE ISLAND, March 16.

While we realize that there are inequalities in our present tariff which should be corrected, and that duties on imports should, as occasion demands, be readjusted to meet the needs of business and the requirements of revenue from the Government, we denounce all horizontal reduction or attempts to embody in our National legislation the principles of free trade.

The platform approves civil service reform, and condemns the violation of this principle by the present National Administration as displayed in the most important Federal offices in this State.

It favors the enforcement of the Prohibitory Liquor Law. It favors submitting to the people propositions for constitutional amendments providing for the abolition of the registry tax, and the real estate qualification as prerequisites for voting.

DEMOCRATIC PLATFORMS.

IOWA, September 1.

We call upon Congress for the immediate revision of our tariff laws to a revenue basis, to the end that every industry and every section may enjoy perfect equality under the law, and we favor the retention of the internal revenue tax on intoxicating liquors and tobacco and protest against its proposed reduction for the purpose of continuing the present high tariff on the necessaries of life.

KENTUCKY, May 4.

We favor honest civil service reform, by which we mean the enforcement of the faithful performance by persons appointed to office of all public duties entrusted to them, and to this end, as well as to the maintenance of the spirit of our representative form of government, we demand the strictest measure of personal and party responsibility, and are opposed to the substitution, in room of this, of life tenure, a civil pension list and all other appendages of a bureaucratic system foreign to the genius of our institutions and people.

We declare the honest money of the Constitution good enough for the people as expressed in gold and silver and paper convertible into coin on demand, and are opposed to all sumptuary laws.

We view with alarm the growing tendency among certain classes of citizens to seek the aid and bounty of the General Government, and as an incident of this tendency to enlarge the powers granted and to multiply powers never contemplated by the Constitution, and we reassert the time-honored Democratic doctrine that "all powers not delegated to the United States are reserved to the States respectively or to the people."

We denounce the present war tariff, laid to confuse as well as to harass the people, as a masterpiece of injustice, inequality and false pretence. It has been maintained by a selfish and false theory of protection, which robs the many to enrich a few. It has piled up in the National Treasury a surplus which menaces the prosperity of all classes and every industry. We demand the immediate reduction of this war tariff not merely as an act of redress to the people, promised by all parties, but as the only safe and just method of reducing the surplus; and in making such reduction we demand further that the taxes

shall first he abolished or lowered upon the necessaries of life; and, finally, we reassert the Constitutional and Democratic doctrine that taxes should he levied exclusively for public purposes and limited to the requirements of the Government economically administered.

MARYLAND, July 27.

That whilst the Democratic party in Maryland believes in an upright and efficient civil service in the administration of government, it is nevertheless opposed to a system of life tenure and to a civil pension list; and whilst it upholds the President of the United States in efforts to effect an honest and competent civil service, still it believes that that civil service should be composed of officers and employes who are not antagonistic to the success of the Administration under which they serve, but are in sympathy with it, whose hearts are in their work, and who believe that upon the continued and just success of the Democratic party rest the safety and security of republican institutions and the liberties of the people.

That we cordially commend our Democratic representatives in Congress from this State for their earnest effort to roduce taxation; and we reaffirm the Democratic platform of 1884 in demanding a revision of the tariff in a spirit of fairness to all interests of the labor and capital involved therein.

MASSACHUSETTS, September 20.

It being an unquestioned principle that the business of the Government should be conducted with the same care as personal business matters, therefore we believe that no business can be successfully carried on unless those engaged in its prosecution act in harmony. We believe that no business man would employ or retain in his employ any person who was known to be in the interest of a rival, who depreciated his business capacity, undermined his credit or disclosed his secrets. We believe no administration of the Government can be successful unless those who are intrusted with the execution of its affairs are interested in its success, approve of its policy, and helisve in its principles. We helieve all the important offices in the civil servioe should be filled hy competent persons in political sympathy with the Administration; that all other offices not representative in character should be filled by persons selected for their fitness, capacity and integrity; that the dispensing of patronage shonld neither be a tax upon the time of our public men nor the instrument of their ambition. We believe that no officer should be retained in the public service who has shown himself an offensive partisan, and we think a sense of propriety to the Administration of which they are a part requires the Federal officeholders representing the Administration in this State to discharge from the public service any of their snbordinates against whom charges of offensive partisanship can he substantiated.

We believe that the power of Congress to tax the people is limited by the Constitution to the requirements of the Government; that any system of taxation which produces a revenue beyond this is unwise and dangerous. It throws unnecessary burdens on the people and enhances the cost of living; it encourages needless and extravagant appropriations by Congress, and, by withdrawing from general circulation money that shonld he actively employed, embarrasses trade and may be the cause of a disastrous financial crisis. We do not advocate free trade, hut favor and desire a revision of the present unjust and hurdensome tariff laws. We heartily approve of the following recommendation of the President: "The increasing and unnecessary surplus should be released to the people by an amendment to our revenne laws which shall cheapen the price of the necessaries of life and give freer entrance to such imported materials as may he manufactnred into marketahle commodities." We helieve the income derived hy the Government from the internal revenue tax should be applied to disoharge the burdens imposed on the people by the late war.

NEW-YORK, September 28.

The unnecessary Federal taxation of the last fiscal year exceeded $100,000,000. Unnecessary taxation is unjust taxatiou. Therefore the Democracy of New-York demand that Federal taxation be straightway reduced by a sum not less than $100,000,000 a year, and also respectfully urge upon Congress that a measure shall he adopted which will, in the language of the President's inaugural address, "relieve the people from unnecessary taxation, having a due regard to the interests of capital invested and workingmen employed in American industries." The taxes to be first reduced or altogether removed are those on imported raw materials which now assist and promote foreign competition with ourselves in our own markets and prevent or hinder the sale of surplus products in foreign markets. Along with those taxes should he forthwith remitted or reduced the taxation which increases the cost to our wage earners of the common necessaries of life and the price of the common daily clothing of all our people. Besides these there are several hundred articles among the 4,182 articles now taxed which shonld he swept off the tax list into the free list, thereby diminishing the cost of collecting all our seaport taxes and casting away those which are petty, needless and vexatious. We also urge an immediate enactment of the measnres prepared by Mr. Manning and Mr. Hewitt and reported to the last House by the Committee of Ways and Means to systematize, simplify and economize the machinory for the collection of the customs revenue and especially for making correct appraisements of foreign values wherever ad valorem rates of duty shall be retained.

To all citizens horn in foreign lands and to the multitude of onr native citizens who desire to obtain and securely hold their own homes the Democratic party has rendered inestimable service in reclaiming from speculative railroad corporations the public lands which such corporations, hy the corrupt aid of Republican Administrations, had seized to be disposed of for their private gain. Many millions of acres of these lands have been so recovered hy the Democratic Administration and returned to the people for the use of actual settlers.

The Democratic party is the proved friend of all who have come to our country seeking to become partners in its welfare and citizens obedient to its laws. There is in our America bread enough and work enough for all, and the Federal laws now on the statute book for the promotion and protection of

foreign emigration do not in our opinion, if they shall be faithfully executed by the proper Federal and State authorities, require present enlargement or amendment.

The Democracy of New-York reiterate their support of the Civil Service laws of the United States and of the State of New-York and their purpose to uphold them both. In view of the radical change in administrative methods, which grow out of the Civil Service laws, and the differences of opinion which exist in relation thereto, we deem the subject one which might appropriately be submitted to the popular vote. Notwithstanding the decided decrease in the ordinary expenditures of Government, the faithful soldiers, sailors and their families have been generously remembered, and the annual pension lists under Democratic control show payments in number and amount largely in excess of those during the years of Republican administration.

The Democracy of the State of New-York deplore the wrongs inflicted on Ireland by the coercive and despotic power of the English Government, and express to that suffering people the earnest hope that they may speedily enjoy the blessings of home rule and of civil liberty.

In order to secure the necessities of life to our people and raw materials for the employment of our industries and the building up of our towns and cities at the lowest practicable cost, we favor the continuance of the work of lengthening the locks and of cleaning out the channels of the canals upon the plan recommended by the late Governor Seymour and in progress by the State. The State of New-York needs and will accept no Federal aid for the improvement or maintenance of its canal system.

We favor a revised excise law applicable without unjust discrimination throughout the State. We oppose all sumptuary laws needlessly interfering with the personal liberties and reasonable habits and customs of any portion of our citizens. We believe that excise revenues, like other proper local revenues, should be applied in lessening local burdens and to the reduction of local taxation.

We assert the right of local self-government for cities and demand that the Legislature shall provide general laws for the exercise of that right. We heartily approve of such legislation as shall give the fullest protection against simulated products to the farm and dairy interests.

The oppressive hours of labor demanded of their employes by many corporations deriving large profits from the use of public streets or land acquired for public use, should be so regulated by law that no more than ten hours shall be required for a day's work, and all corporations, other than municipal, should be required to pay their employes, whose wages are by the day, once a week, and in money.

The Democratic party, the party of the people, which in the past has inaugurated and carried through all legislation of genuine and lasting benefit to those who work for wages, is always ready to favor such legislation as may be justly required to protect and promote their interests and welfare.

New-York State now enjoys the benefit of a Democratic Administration, which has well fulfilled the trust committed to it by the electors in 1885. In every branch of the State Government under Democratic control the laws have been carried into effect with rigor and justice, and every right of the people has been zealously maintained. Wherefore we heartily indorse the Administration of David B. Hill, Governor of New-York, and pledge him our full confidence and support.

The Democracy of New-York approve the Administration of Grover Cleveland, President of the United States. It has won the respect and confidence of all citizens, without regard to party. It has removed that apprehension of the dangers which would attend change of party in the General Administration, which had become a serious obstacle to the maintenance of our system of a free government, depending upon the popular will. It has brought back honesty and simplicity to the conduct of affairs. It has checked the waste of the public moneys and insisted upon their devotion to constitutional purposes. It has effected a practical reform of the Civil Service. It has maintained the national character for justice and forbearance in dealing with foreign countries. Its management of the Treasury has been signally wise and prudent, and it has begun the reconstruction of our naval establishment with a thoroughness that promises the restoration of our ancient prestige upon the sea. Wherefore, we, representing the Democracy of New-York, in convention assembled, again pledge to the President our strong and unwavering confidence and support.

OHIO, July 21.

We demand such judicious reduction of the present burdensome tariff as shall result in producing a revenue sufficient only to meet the expenses of an economical administration of Government, the payment of liberal pensions to Union soldiers and sailors, and the payment of the interest and principal of the public debt; and, if necessary, we favor such reduction of internal revenue, except on liquors, as will prevent the accumulation of a surplus in the National Treasury, and we denounce any attempt to abolish the tax on liquors for the purpose of keeping up the present unjust, unequal and onerous tariff system.

We call attention to and affirm as sound doctrine and policy the following emphatic and patriotic language of President Cleveland: "Our public domain is our National wealth, the earnest of our growth and heritage of our people. It should promise limitless development and riches, relief to a crowding population, and homes to thrift and industry. These inestimable advantages should be jealously guarded, and a careful and enlightened policy on the part of the Government should secure them to the people." We demand that all lands of the Government be held for actual settlers who are citizens of the United States and for those who declare their intention to become such.

We declare in favor of a proper regulation of the liquor traffic, and believe it to be the duty of all good citizens to aid in reducing to a minimum the evils resulting therefrom, and to this end favor the submission of an amendment to the Constitution providing for the license of such traffic.

PENNSYLVANIA, August 31.

That we renew our allegiance to the principles and declarations of the platform adopted at Chicago in 1884, which Mr. Cleveland, the nominee of the party, heartily

indorsed, declaring in his letter of acceptance: "I have carefully considered the platform adopted by the Convention, and cordially approve the same; so plain a statement of Democratic faith and the principles upon which that party appeals to the suffrages of the people needs no supplement or explanation." To these principles he has faithfully adhered in all his public utterances. We further affirm the platform adopted by our State Convention of 1886, and in view of the existing condition of the public Treasury, we demand with emphasis that the large surplus already in the Treasury shall be used to pay the public debt, and that the current and unnecessary increase going on beyond the needs of Government shall be immediately prevented by a wise and prudent reduction of internal taxation and of duties on imports in accordance with the foregoing declarations.

RHODE ISLAND, March 9.

The platform adopted indorses Cleveland's Administration and "views with alarm" the present political condition of Rhode Island.

VIRGINIA, August 4.

We demand the immediate repeal of the Internal Revenue system, a relic of the war and no longer necessary to meet the demands of the Government, because it is oppressive, fosters monopolies and is obnoxious to the interests of our people.

We favor raising the revenue requisite for the support of the Federal Government by a tariff upon imports, limited to the necessities of government economically administered and so adjusted in its application as to prevent unequal burdens, encouraging productive interests at home, the development of our material resources, and affording just compensation to labor, but not to foster monopolies.

The Democratic party pledges itself to urge upon Congress the justice of its practical recognition of Virginia's equitable demands for compensation for her past munificent concessions to the territory of the Federal Government, and also for loss to Virginia for dismemberment of her territory and consequent reduction of her taxable values, in order that the fund justly due Virginia from this source may be available to aid in relieving the taxpayers from the burdens of their present financial difficulties.

We earnestly advocate liberal appropriation by the Federal Government out of the revenues in aid of the education of the children of the several States in proportion to illiteracy, in accordance with the provisions of the Blair bill or some better measure.

PROHIBITION PLATFORMS.

MASSACHUSETTS, September 7.

The liquor oligarchy is denounced as a colossal enemy. The system of attempted restriction of the liquor traffic by means of licenses is characterized as a failure and local option as an insufficient safeguard. Entire prohibition of the liquor traffic is declared to be a principle good in law and feasible in practice. The prospect of obtaining it either in Massachusetts or in the Nation through the agency of either of the existing parties is declared to be delusive, as the Democratic party makes no pretensions in that direction and the Republican party for the most part makes nothing else. Therefore, the maintenance of a separate party whose membership shall be specifically pledged to the furtherance of constitutional prohibition in State and Nation is absolutely essential. Municipal suffrage to women is demanded as an act of simple justice.

NEW-JERSEY, September 8.

We affirm our allegiance to the National Prohibition party and its principles, and reassert the declaration of the State Convention of 1886. We call the attention of the voters of this State to the fact that in the last Legislature no representative of either the Republican or Democratic party was sufficiently friendly to the cause of suppression of the liquor traffic even to introduce a prohibitory amendment to the Constitution, and to the fact that notwithstanding the pretence of the last Republican platform to local prohibition, no member of that party brought a local option bill to a vote in the Legislature, and we charge this action to have been subserviency to the liquor element, which controls the politics of the Republican as well as the Democratic party, and forbids them looking toward the destruction of the liquor traffic anywhere. We submit to the Christian and temperance people of this State whether they can longer support political parties which have no control over their representatives to obtain temperance legislation or to prevent the legalizing of gambling, as was done by the Monmouth Park Pool bill passed last winter. While in every political party various matters of policy are set forth, yet in every party there must be one supreme and dominant issue. We declare the extermination of the liquor traffic to be the supreme political issue, and to be the only test of party fealty, and that no person be nominated or indorsed by the Prohibition party as a candidate for any office in any town, county or district in this State unless such person be an openly avowed and consistent member of said Prohibition party, and unless he has wholly separated from all other political parties.

NEW-YORK, August 26.

We, Prohibitionists of New-York, through our representatives in convention assembled, grateful to Almighty God, Sovereign of nations and Guardian of homes, and looking to Him for guidance, hereby set forth the following declaration of principles:

First—The government of and by and for the people can be permanent and fit to endure only as the people guard sacredly public morals and private life.

Second—That the liquor traffic being a foe to the individual citizen, a curse to the home,

n burden to society, and n crime against God and the State, its entire prohibition is demanded by every interest of social and political economy.

Third—That the extermination of this traffic can never be secured through any system which confers license or levies a tax upon it.

Fourth—That to vote for license or tax of the liquor traffic is to accept, in the name of the State, a bribe from the State's worst enemy, and that he who votes for a corrupt and corrupting system for the revenue it yields is as guilty of a crime against the State as he who sells his vote to a corrupt candidate.

Fifth—That the purity and value of the ballot demand disfranchisement for him who sells a vote and also for him who buys it.

Sixth—That justice and equity alike demand that the ballot should be given to woman, and that we demand the submission by Congress to the several States of a National Constitutional Amendment guaranteeing her right thereto.

Seventh—That the extermination of the manufacture, importation and sale of intoxicating beverages is the dominant issue before the citizens of both State and Nation. It is, therefore, the only test of party fealty.

Eighth—For wage-earners we demand prohibition of the liquor traffic as the most important reform; that the health and safety of workers in the performance of their labor should be secured by law; that the laws relating to child labor and compulsory education should be strictly enforced and their provisions extended; that postal savings banks and telegraphs should be established; that a just system of profit-sharing between employers and employes should be encouraged; that the establishment of co-operative business enterprises by laboring men be promoted by wise legislation; that differences relating to the rewards of labor should be settled by arbitration; that equal wages for equal work be paid alike to men and women; that we are opposed to the holding of large tracts of land for speculative purposes by any individual or corporation and demand that the public lands be reserved for actual settlers; that such franchises as street railroads, stage routes, ferries and gas companies should be disposed of to individuals or companies that would agree to serve the public at the lowest rates, and not to the highest bidder; that all men should pay tax upon what they own, and not upon what they owe.

Ninth—And finally, that as proofs of the subserviency of the Republican and Democratic parties to the rum power, we cite the failure of the Republican party for four consecutive years to fulfil its pledge to submit to the people a Constitutional Amendment and the passage by recent Legislatures of the Mandamus bill, Mooney Excise bill and the Crosby High-License bill, avowedly to popularize beer and wine; and the Vedder Tax bill, a shameless attempt to bribe citizens; and the Ives Pool bill, by an application of the license principle, thus legalizing gambling and sharing with the gambler his profits; and the Cantor Beer bill, thus increasing the enticements of the saloon by music and song, and by similar acts of party leaders and representatives.

The convention rejected by a vote of 171 to 206 a plank declaring that the United States should establish postal savings banks and telegraphs. The convention also cancelled a plank declaring that the legal rate of interest in this State should be reduced to five per cent.

OHIO, June 30.

It reiterates denunciation of the liquor traffic, condemns the Dow Liquor Tax law, recommends woman suffrage, condemns Anarchy, approves Civil Service Reform, opposes sudden or violent changes in the tariff, and deprecates the fostering of sectional animosities between North and South. Further safeguards are demanded for Sunday and temperance instruction in public schools.

PENNSYLVANIA, August 24.

We declare that no political and preventable evil or combination of evil so clogs the progress of good, so burdens industry and trade, so corrupts politics and legislation, so endangers life, liberty and property, so threatens the perpetuity of free institutions, as the liquor traffic. No political issue is so important as is the suppression of the manufacture and sale of intoxicating beverages, and we demand the prohibition of the same by statutory and constitutional enactment, faithfully enforced, as the only corrective agency for the evils arising therefrom.

We declare that during the past year the current of party declarations and actions gives no promise that either the Republican or Democratic party will make the legal prohibition of the drink traffic the object of party support, and that therefore the citizen who desires prohibition and relief from responsibility for and complicity with the drink trade, can find it only by casting his vote with the Prohibition party, the only party that dares meet the saloon power at the ballot-box.

We declare the action of the late Legislature in refusing to prohibit the sale of intoxicating liquors on Memorial Day, and in the enactment of the present "high license law," as satisfactory evidence of the complicity of the Republican and Democratic parties with their subjection to the saloon power.

We favor protection to American labor and capital; the restriction of immigration as against pauper and criminal classes; the reservation of our public lands for actual settlers, popular education with the retention of the Bible in our public schools; just pensions to our dependent soldiers or their families; civil service based on personal character and official fitness, and a wise and economical administration of public affairs.

The earnest, energetic labors of the women of the State for the promotion of temperance merits our gratitude; viewing with alarm the shiploads of ignorant and vicious men who are annually brought to our country, and who, soon becoming voters, control our large cities, endangering life, property and our civil and religious institutions, we shall hail with satisfaction the day when the intelligence and virtue of American women, our only political counterpoise to this ignorance, shall be clothed with legal power, their rightful due, to practically and efficiently defend "home and native land" with their ballots.

UNITED LABOR PLATFORM.

NEW-YORK August 19.

We, the delegates of the United Labor party of New-York, in State convention assembled, hereby reassert, as the fundamental platform of the party and the basis on which we ask the co-operation of citizens of other States, the following declaration of principles, adopted on September 23, 1886, by the convention of trade and labor associations of the city of New-York, that resulted in the formation of the United Labor party:

"Holding that the corruptions of government and the impoverishment of labor result from neglect of the self-evident truth proclaimed by the founders of this Republic that all men are created equal and are endowed by their Creator with inalienable rights, we aim at the abolition of a system which compels men to pay their fellow-creatures for the use of God's gifts to all, and permits monopolizers to deprive labor of natural opportunities for employment, thus filling the land with tramps and paupers and bringing about an unnatural competition which tends to reduce wages to starvation rates and to make the wealth producer the industrial slave of those who grow rich by his toil.

"Holding, moreover, that the advantages arising from social growth and improvement belong to society at large, we aim at the abolition of the system which makes such beneficent inventions as the railroad and telegraph a means for the oppression of the people and the aggrandizement of an aristocracy of wealth and power. We declare the true purpose of government to be the maintenance of that sacred right of property which gives to every one opportunity to employ his labor and security that he shall enjoy its fruits; to prevent the strong from oppressing the weak and the unscrupulous from robbing the honest; and to do for the equal benefit of all such things as can be better done by organized society than by individuals; and we aim at the abolition of all laws which give to any class of citizens advantages, either judicial, financial, industrial or political that are not equally shared by all others."

We call upon all who seek the emancipation of labor, and who would make the American Union and its component States democratic commonwealths of really free and independent citizens, to ignore all minor differences and join with us in organizing a great national party on this broad platform of natural rights and equal justice. We do not aim at securing any forced equality in the distribution of wealth. We do not propose that the State shall attempt to control production, conduct distribution, or in any wise interfere with the freedom of the individual to use his labor or capital in any way that may seem proper to him and that will not interfere with the equal rights of others. Nor do we propose that the State shall take possession of land and either work it or rent it out. What we propose is not the disturbing of any man in his holding or title, but by abolishing all taxes on industry or its products, to leave to the producer the full fruits of his exertion and by the taxation of land values, exclusive of improvements, to devote to the common use and benefit those values which, arising not from the exertion of the individual, but from the growth of society, belong justly to the community as a whole. This increased taxation of land, not according to its area, but according to its value, must, while relieving the working farmer and small homestead owner of the undue burdens now imposed upon them, make it unprofitable to hold land for speculation, and thus throw open abundant opportunities for the employment of labor and the building up of homes.

While thus simplifying government by doing away with the horde of officials required by the present system of taxation and with its incentives to fraud and corruption, we would further promote the common weal and further secure the equal rights of all by placing under public control such agencies as are in their nature monopolies. We would have our municipalities supply their inhabitants with water, light and heat; we would have the general government issue all money without the intervention of banks; we would add a postal telegraph system and postal savings banks to the postal service, and would assume public control and ownership of those iron roads which have become the highways of modern commerce.

While declaring the foregoing to be the fundamental principles and aims of the United Labor party, and while conscious that no reform can give effectual and permanent relief to labor that does not involve the legal recognition of equal rights to natural opportunities, we nevertheless, as measures of relief from some of the evil effects of ignoring those rights, favor such legislation as may tend to reduce the hours of labor, to prevent the employment of children of tender years, to avoid the competition of convict labor with honest industry, to secure the sanitary inspection of tenements, factories and mines, and to put an end to the abuse of conspiracy laws.

We desire also to so simplify the procedure of our courts and diminish the expense of legal proceedings, that the poor may be placed on an equality with the rich and the long delays which now result in scandalous miscarriages of justice may be prevented.

And since the ballot is the one means by which in our republic the redress of political and social grievances is to be sought, we especially and emphatically declare for the adoption of what is known as the "Australian system of voting," in order that the effectual secrecy of the ballot and the relief of candidates for public office from the heavy expenses now imposed upon them may prevent bribery and intimidation, do away with practical discrimination in favor of the rich and unscrupulous, and lessen the pernicious influence of money in politics.

In support of these aims we solicit the co-operation of all patriotic citizens who, sick of the degradation of politics, desire by constitutional methods to establish justice, to preserve liberty, to extend the spirit of fraternity, and to elevate humanity.

PROGRESSIVE LABOR PLATFORM.

NEW-YORK, September 28.

1. "That the soil of every country is the social and common inheritance of the people."

2. "That labor produces all wealth," which includes the instruments through which alone the forces of nature become accessible.

3. "That all should," therefore, "have free access to land," and to the instruments of production, "without tribute to landlords and monopolists."

4. "That there can be no harmony between capital and labor under the present industrial system," which either dwarfs or suppresses individual development by denying to the masses of the American people their inalienable right to life, liberty and the pursuit of happiness.

5. "That the emancipation of the working classes must be achieved by the working classes themselves" through "the establishment," as demanded by the Knights of Labor, "of co-operative institutions, such as will tend to supersede the wage system by the introduction of a co-operative industrial system"; and

Resolved, That with a view to the immediate relief of the people by the correction of glaring abuses and the suppression of odious wrongs, we first demand:

That eight hours constitute a day's work.

Prohibition of child labor in all occupations.

Prohibition of female labor in occupations detrimental to health or morality.

The extension and perfection of our common school system.

Equal pay to both sexes for equal work.

Payment of wages weekly, in lawful money, and no more "truck" pay.

First lien for workmen's wages.

The enactment of juster laws for the liability of employers to employes.

Abolition of the contract system in prisons and on public works.

Sweeping reform of the tenement-house system.

Abolition of tenement-house cigarmaking and all other tenement-house manufacturing.

Sanitary inspection of mines, factories, dwellings, and all conditions of labor, and legislation to secure the life and health of all laborers.

Rigid enforcement of the law prohibiting the importation of foreign labor under contract.

Rigid enforcement of all existing beneficial labor laws.

Equal adult citizenship and suffrage, without regard to sex.

Repeal of all blue laws interfering with the interests of labor and personal liberty.

Repeal of all conspiracy laws, tramp laws and all class legislation and privileges.

No Pinkertons, no armed bandits in the pay of capital.

Resolved, That with a view to progressive advance in the direction marked out by the declaration of principles, we furthermore demand:

The public ownership and management of railroads, telegraphs, express and steamship lines, telephones, gas and water works and all industries involving the use of public franchises, or the performance of public functions.

The direct issue of currency and money by the National Treasury, without the intervention of banks.

And as a first step to the recovery of the natural inheritance of the people, we favor a special tax on unimproved land, sufficiently high to compel its improvement or its surrender to the community by the speculators who withhold it from use.

We favor also a tax on all incomes above $2,000 per annum, so graduated as to bear most heavily upon the great incomes of the monopolistic classes and corporations, and thus materially lighten the burdens now borne by the workers, producers and masses of the people.

With the same end in view, we also favor the exemption from taxation of the average homesteads, farms, manufactories, working, tools and properties under $5,000 in value occupied or productively used by the owners, and not rented out.

Resolved, That we demand home rule, *i. e.*, that the people of each city and town, respectively, shall have full control of their own local affairs.

Resolved, That we demand the direct election by the people of all responsible officials, judicial, executive, administrative and legislative.

Resolved, That we favor the adoption of the Referendum principle, as applied in the Republic of Switzerland and in part in the several States of this Union, so that all laws of importance shall be submitted to the people for their approval or rejection.

Resolved, That we demand such revision of our electoral laws as will secure the absolute secrecy of the ballot, a complete registration and identification of voters, the effective prevention of bribery and intimidation, and the payment of all proper election expenses by the community.

Resolved, That we favor the enlargement of the Erie Canal to the full extent required for the preservation of the interests of the State, threatened by railroad monopolies and the competition of Canadian waterways.

Resolved, That that we denounce the willful misconstruction and violation of the eight-hour law by the Federal authorities, especially in the case of the overworked letter-carriers. We therefore demand that this law be so amended by Congress at its next session that all employes of the National Government, working for daily wages or a modest annual salary, shall be clearly entitled to its benefits, without possibility of evasion. We also demand the enactment of a similar law by the State Legislatures, with an additional provision making it a punishable offence for all corporations or individuals who enjoy public franchises, such as horse and steam railways, telegraphs, etc., to exact more than eight hours labor per day from their employes.

UNION LABOR PLATFORM.

OHIO, July 5.

The platform declares, among other things, that the natural agencies of production and distribution are seized by syndicates of speculators and gamblers. It demands that the laws against bribery and force or intimidation to secure nominations or elections be rigidly enforced, and that "free drinks" or "lunch" at saloons be declared bribery by statute; that all banks be required to give security to the State for the average amount of their deposits; that speculation in the necessaries of life, "cornering" the market and dealing in "margins" and "futures," be declared criminal offences, and that all discriminations by employers against lawful associations of employes to secure their rights be declared felony.

MISCELLANEOUS PLATFORMS.

"PERSONAL LIBERTY PARTY," New-York, October 6.

Whereas, in many parts of this State, under the pretence of serving religion and morality, of aiding in the prevention of crime and of diminishing the causes of pauperism, attempts are multiplying to encroach upon the rights of person and of property guaranteed by those principles of rational liberty upon which the whole structure of our republican system and of the Federal and State Governments is based; and

Whereas, Such attempts do generally culminate in efforts of the law-making power, from the Legislature down to municipal councils, to pass enactments detrimentally affecting time-honored customs and individual rights and privileges, . . .

Whereas, In the exercise of this assumed power, the admitted right to prescribe proper police regulations for the the preservation of public order and decency is unjustly invoked to curtail the personal, civil and religious freedom of the individual citizen; . . .

Whereas, Sumptuary laws have nowhere proved effectual in extirpating intemperance nor in reducing immorality and vice; . . . almost invariably stirre t up ill-feeling, and even hatred among the people of the community; . . .

Whereas, Our foreign-born citizens, especially those of German descent, are, according to authentic statistical reports, considered to be assiduous, temperate and law-abiding people, . . .

Therefore, In defence of the principles of well-defined liberty, for the protection of the civil and religious rights of the person, . . .

Resolved, That we, as independent citizens of this State, are firmly determined to use all honorable means to promote the cause of civil and religious liberty by insisting upon the repeal of the obnoxious portions of the excise laws until that result shall have been attained.

Resolved, That in order to carry out the views and objects expressed in the foregoing preamble and resolutions, we, in convention assembled, do hereby call upon all societies, clubs, social and benevolent associations and their friends in the various cities, villages, towns and districts of this State who have thus far not identified themselves with this movement to create and maintain effective local organizations to act in concert with our Central Executive Committee.

Resolved, That we will support only such candidates for the Legislature of this State, irrespective of their political affiliations, who will accept the views expressed in these resolutions and pledge themselves to adopt them for their rule of official action whenever and wherever applicable; and all legitimate means in our power will be used to secure their election.

OHIO WOOL-GROWERS' ASSOCIATION.

The Ohio Wool Growers' Association adopted resolutions declaring in favor of *better protection for the wool-growing interest*. Resolutions were also adopted expressing the opinion that, by ceasing to collect revenue from spirits and tobacco, "and thus remitting to the people of the several States the power and authority to deal by law with the business of manufacturing and selling spirituous and malt liquors, the moral, social, and civil condition of society will be better cared for than it has been under the enormous and dangerous monopoly that has been fostered by the regulation of the manufacture by the Federal Government."

* Three Republicans voted for Camden on these ballots. No further ballots were taken, the joint assembly having voted, after the 35th ballot, to dissolve—yeas 35, nays 28 (2 not voting).

There was thus no election. The ballots were continued from January 26 to February 25, inclusive. The Legislature thereupon adjourned. After adjournment, on March 5, the Governor appointed Daniel B. Lucas to fill the vacancy caused by the expiration of Mr. Camden's term and the failure of the Legislature at its regular session to fill it, to serve until the next meeting of the Legislature having authority to fill said vacancy.

Several important bills having failed, the Governor called the Legislature in special session on April 20, under the 7th section of Art. VII. of the Constitution: "The Governor may, on extraordinary occasions, convene, at his own instance, the Legislature; but when so convened it shall enter on no business except that stated in the proclamation by which it was called together."

The Governor, in his proclamation, indicated the business on which it should enter, and did not name the election of a U. S. Senator. The Legislature, however, proceeded to vote for a Senator—the House having voted so to do—yeas 42, nays 22; the Senate—yeas 17, nays 6 (3 not voting).

The votes at the May session of the Legislature were:

1887, May 3—SENATE—W. H. H. Flick 9, BARBEE 1, *Camden* 10, *Haymond* 1. *J. J. Davis* 1, *Brannon* 1 (3 absentees, 2 Republicans). HOUSE—Flick 23, BARBEE 5, *Camden* 29, *Haymond* 3, *John W. Harris* 2, *Daniel B. Lucas* 2, *Brannon* 1.

POLITICAL MISCELLANY.

CALIFORNIA — Three Constitutional amendments were defeated in April. The first gave the Supreme Court Commission power to determine causes and made the Chief Justice elective by the other Supreme Judges instead of the people. The second increased the salaries of Supreme Court Judges and certain Superior Court Judges in districts, notably in San Francisco. The third empowered cities of over 10,000 to make their own city charters which were to be submitted for ratification to the people.

The Supreme Court has decided that each municipality has power to control the sale of liquor within it.

CONNECTICUT—The early-closing law, as applied to liquor saloons, allows the municipal authorities of any town, city or bor-

ough to fix the time not later than 12 o'clock midnight; otherwise, the law fixes the time at 11 o'clock, and not to be opened before 5 a. m.; no liquor can be sold to a minor, even to carry away; a druggist can make only one sale on a prescription, to be drunk on the premises; and in less quantities than five gallons cannot be sold without license.

On Labor matters, are laws requiring 80 per cent. weekly payment bill, restricting minors under sixteen and women to ten hours in manufacturing, mechanical or mercantile establishments, exempting wages from foreign attachment, and providing for inspection of factories.

DAKOTA TERRITORY—The Legislature passed a stringent "local option" law. November 8, the majority against division was 3,938. The majority in Northern Dakota was 10,000 for division; Southern Dakota, 13,938 against.

DELAWARE—The House passed—(yeas 15, nays 6)—a bill grading liquor licenses from $400 for Wilmington to $200 for village and country taverns, and limiting druggists to the sale of liquor on physicians' prescriptions only, and to one sale on each prescription. The Senate defeated the bill on the last day of the session. November 1 there was a vote on calling a Constitutional Convention. There were 14,431 yeas, 398 nays. 15,640, a majority of the highest vote since 1880, were required. Scientific temperance instruction is to be compulsory in all public schools.

ILLINOIS—A Prohibitory Amendment including a clause that the State should pay all damages for property destroyed or depreciated by carrying out the amendment, was defeated—63 to 78. The vote on inserting the clause touching damages was adopted—91 to 50, after a substitute for the bill that hereafter no liquor-license shall be granted for a less sum than $1,000 was defeated—40 to 99.

INDIANA—Local option and "High-License" bills were passed by the House and rejected by the Senate. The Senate passed a resolution—43 to 4—for the election of United States Senators by popular vote; the House tabled it without a division.

IOWA—The Supreme Court, two justices dissenting, has affirmed the decision of the lower court that the sale of intoxicating liquors for export, for general purposes, was illegal, and closing the International distillery as a nuisance.

KANSAS—A bill conferring woman suffrage in municipal matters has become a law. The vote in the House was: Yeas, 91; nays, 22. Affirmative, all Republicans except three Democrats; negative, all Democrats except five Republicans.

KENTUCKY—The question of a Constitutional Convention, carried in 1887, must be again, under the Constitution, submitted and carried in 1889, to perfect the call.

LOUISIANA—The vote in November in the VIth Congressional District to fill the vacancy was: John Voist, Rep., 2,550; *Samuel M. Robertson*, 6,706.

MAINE—Female suffrage failed in the House for want of a two-thirds vote.

MASSACHUSETTS—A Constitutional prohibitory amendment was defeated in the House—142 to 77—not two-thirds. Of the 142 yeas 126 were Republican, 13 were Democrats, 1 Independent Republican, 1 Independent Democrat and 1 Independent. Of the 77 nays, 58 were Democrats, 17 Republicans and 2 Independent Democrats. A High License act was passed. The vote on license in fifteen cities was: For, 92,013; against, 107,384. On March 11 a Woman Suffrage bill for city or town elections or meetings was refused third reading in the House—61 to 97; pairs, 25. Of seventeen cities which voted in December, 1887, only eight refused to license the saloon.

MICHIGAN—The law providing that instruction in physiology and hygiene, with special reference to narcotics and their effects upon the human system, took effect September 9, and applies to all schools in the State, whether incorporated under special charter or the general law. A "Local Option" law has passed; and in towns where prohibition is not adopted saloons must be closed on Sundays and at 11 o'clock every secular night. A High License act imposes a tax of $500 on each wholesale and $300 on each retail liquor dealer. An act gives the people of each county the right to vote at a special election once in three years on the question of permitting sale of liquor within its limits. A State constabulary has been created to enforce this law. Woman suffrage at municipal elections was defeated in the House.

MINNESOTA—A "High License" act imposes a charge on each saloon in cities of 10,000 inhabitants and over, $1,000; and in places of less than 10,000 inhabitants, $500. Townships are also permitted to exclude saloons.

THE TRIBUNE FOR 1888.

Every Consideration of Loyalty, Safety and Public Prosperity calls for the Election of a Republican President in 1888.

PENSIONS! TEMPERANCE! PROTECTION!

THE TRIBUNE is leading in the presentation of the arguments for a Service Pension. The old soldiers need a newspaper to represent them, which is not identified with, nor an advertisement of a money-making pension agency, and this want is supplied by THE TRIBUNE. The soldiers' column in THE TRIBUNE is of intense interest to every veteran. Soldiers who have in their possession advertisements, placards, or orders, published from 1861 to 1865, in which the payment of pensions was specifically promised, are requested to supply THE TRIBUNE with copies of them.

Better protection to Farm Products against foreign competition is the need of the times. The Wool-growers have been nearly ruined by the reduction of duty of 1883 and the surplus revenue has been actually increased by that reduction. THE TRIBUNE is organizing a movement to let Congress and the country know the exact wishes of the Farmers of America concerning any further reductions of duty on their products. It has applied to every Grange, Farmers' Club and Agricultural Society in the United States, for its views; and it is now about to submit their replies to a committee of representatives of agriculture, of which the Hon. Warner Miller has consented to act as chairman. A statement will be prepared showing what the welfare of the farmers demands, which will be sent to all the societies for their approval with a view to its ultimate presentation to Congress. Publication of letters from the Granges, etc., has begun in THE TRIBUNE.

Temperance is being earnestly discussed in THE TRIBUNE.

In preparation for the Presidential campaign, THE TRIBUNE has just had constructed three large new printing presses of the latest and best type, worth $120,000, capable of producing 72,000 copies per hour. They will be placed in position during December and January. Thereafter the supplement sheets will be folded into place in the main sheet. Readers will appreciate the convenience of this improvement.

During 1888, THE WEEKLY will be enlarged by from 4 to 8 pages more of actual reading matter.

THE SEMI-WEEKLY already contains much more reading matter in proportion than THE WEEKLY.

Terms: THE WEEKLY, $1 a year; an extra copy with a club of five. SEMI-WEEKLY, $2 a year; an extra copy with a club of five. DAILY, $8 50.

Premiums; Send for a circular describing in full THE TRIBUNE'S list of pretty and attractive cheap premiums.

E. B. HARPER, President.

Indorsed by three Insurance Commissioners.

The Mutual Reserve Fund Life Association, its system, its accounts, its books, its payment of death losses, has just passed a most rigid examination at the hands of Hon. Philip Check, jr., Insurance Commissioner of the State of Wisconsin; Hon. Charles Shandrew, Insurance Commissioner of the State of Minnesota; also, Hon. Elisha W. Bucklin, Insurance Commissioner of the State of Rhode Island; these three Insurance Commissioners appeared at the office of the Mutual Reserve Fund Life Association simultaneously during this month and each have made a thorough and critical official examination of the affairs of the Association, and each one individually has expressed himself as fully satisfied as to the solvency of the Association, the perpetuity of its plans, the executive ability and sterling honesty of its management; an examination and indorsement by such insurance officials should be highly gratifying to the many thousand members of this great Association.

Election Returns

From every State which voted in 1885, alphabetically arranged. These returns are generally BY COUNTIES, and are compared with previous State votes and the last preceding Presidential election. There is also a statement of the new Legislature chosen in each, compared in partisan strength with the last preceding Legislature. In CONNECTICUT the vote on the new Senators chosen is given by Counties; in NEW-JERSEY, on Senators and Assemblymen, by Districts; and in NEW-YORK, on Senators by Counties and on Assemblymen by Districts. In addition to the usual full returns of the election in the State and the City of New-York, the KINGS COUNTY and BROOKLYN votes on all local officers are gathered from official sources and presented in greater detail than ever before.
